SERUM TEARS

| | | | | | | | |
|-----------------------|--|----------------------------------|-----|-----|---------|---------|----------|
| <input type="radio"/> | NovoTears® (serum tears) | For severe dry eye. | 20% | 50% | 45 days | 90 days | 180 days |
| <input type="radio"/> | NovoTears® Plus Cyclosporine 1% | For severe dry eye and swelling. | 20% | 50% | 45 days | 90 days | 180 days |

DRY EYE MEDICATIONS

| | | | | | | | |
|-----------------------|--|---|----------|--|-------|-------|-------|
| <input type="radio"/> | Acetylcysteine Opth Sol | Reduces the "stickiness" of tears. Eases dryness and soreness associated with dry eye conditions. | 10% | | 5 mL | 10 mL | 15 mL |
| <input type="radio"/> | Cyclosporine with Artificial Tears Opth Sol | Reduces the "stickiness" of tears. Eases dryness and soreness associated with dry eye conditions. | 1% | | 10 mL | 15 mL | Other |
| <input type="radio"/> | Dexamethasone Opth Sol | Reduces inflammation and pain. | 0.1% | | 5 mL | 10 mL | |
| <input type="radio"/> | DHEA Oil Opth Sol | Assists in the maintenance of secretory gland. Thought to hormonally improve dry eye symptoms. | 1% | | 10 mL | | |
| <input type="radio"/> | Gabapentin Opth Sol | Treats ocular nerve pain. | 0.5% | | 5 mL | | |
| <input type="radio"/> | Heparin Opth Sol | Supports lubrication of the surface of the eye. Also effective for paraquat (plant killer)-induced ocular injury. | 100 U/mL | | 15 mL | | |
| <input type="radio"/> | Insulin (Regular) Opth Sol | Treats refractory neurotrophic corneal ulcers. | 1 U/mL | | 15 mL | | |
| <input type="radio"/> | Naltrexone Opth Sol | Reverses dry eye and restores corneal sensation in patients with type 1 diabetes. | 0.2% | | 10 mL | | |
| <input type="radio"/> | Pilocarpine Opth Sol | Treats high pressure inside the eye due to glaucoma. | 0.03% | | 15 mL | | |
| <input type="radio"/> | Pulmozyme® (dornase alfa) Opth Sol | Reduces mucoid debris/strands, which represent repositories of inflammatory materials over the eye surface. This helps in the treatment of dry eye disease. | 1 mg/mL | | 5 mL | | |
| <input type="radio"/> | Tacrolimus Opth Sol | Can effectively treat chronic ocular surface inflammation in severe dry eye patients. Improves tear stability and ocular surface status. | 0.02% | | 10 mL | | |
| <input type="radio"/> | Testosterone Oil Opth Sol | Improves dry eye by promoting tear production and meibomian gland secretion. | 1% | | 10 mL | | |
| <input type="radio"/> | Vitamin A Opth Ointment | Improves tear film and prevents inflammation of the cornea and conjunctiva. | 0.01% | | 3.5 g | | |
